PART I
INTRODUCTORY SECTION

COUNTY OF RANDALL
OFFICE OF THE COUNTY AUDITOR
KARON KANTOR

February 16, 2017

The Honorable District Judges of Randall County,
Honorable Members of the Randall County Commissioners' Court and
Citizens of Randall County, Texas:

The County Auditor's Office (Auditor) is pleased to present the Comprehensive Annual Financial Report (CAFR) of Randall County, Texas (County) for the fiscal year ended September 30, 2016. This report is submitted in accordance with Chapter 114, Subchapter B, and Section 114.025 of the Texas Local Government Code (LGC) and has been prepared by the Auditor.

The purpose of this report is to provide the District Judges of Randall County, the Randall County Commissioners' Court, citizens, representatives of financial institutions and others with detailed information concerning the financial condition and performance of the County. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. The report has been prepared using Generally Accepted Accounting Principles (GAAP) and guidelines promulgated by the Governmental Accounting Standards Board (GASB). We believe the information and data contained herein are accurate in all material respects; and are reported in a manner designed to present fairly the financial position and results of operations of the County in accordance with GAAP. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have also been included, beginning with Management's Discussion and Analysis ("MD&A").

This report consists of management's representations regarding the finances of the County. Consequently, County management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the County's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements were audited by Doshier, Pickens & Francis, LLC, an independent audit firm. The independent auditor's report is presented as the first component of the financial section of this report. GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditors report.

Profile of Randall County

Randall County, created in 1876 from Bexar County, was incorporated in 1889 and named for Confederate Brigadier General Horace Randal; a clerical error doubled the "l" in the County's name. The County consists of approximately 933 square miles of eastward sloping tableland broken by the Prairie Dog Town Fork of the Red River, which flows through Palo Duro Canyon, and its tributaries, the Palo Duro and Tierra Blanca Creeks.

The County is located in the south central Texas Panhandle with the City of Canyon as its county seat. Due to its strategic location, the County, along with Armstrong, Carson and Potter Counties to the north and east and the cities of Canyon and Amarillo, are designated the "Amarillo Metropolitan Statistical Area" (AMSA) by the Texas Comptroller of Public Accounts and has become a trade-center for the northern panhandle and a five-state area. The County is traversed, along its northern border, east and west, by the four lane Interstate Highway 40 and from north and south by both four lane Interstate Highway 27 and U.S. Highway 87 and from northeast and southwest by four lane U.S. Highway 60.

County government structure and services

The County has a Commissioners' Court (Court) form of government. The Court is comprised of a County Judge who is the presiding officer of the Court and four Commissioners. The County Judge is elected at large to a four year term and the Commissioners are elected by precinct. The Commissioners serve four year staggered terms, with two Commissioners elected every two years. The Court's regularly scheduled meetings are on the second and fourth Tuesday of each month.

The County Auditor is the Chief Financial Officer of the County and is responsible for substantially all county finance and accounting control functions including internal controls. The County Auditor is appointed for a two year term by the State District Judges of the County.

The County serves an estimated 2016 population of 130,269 and provides a full range of county services normally associated with a Texas county, including administration of general government, adult and juvenile justice programs, assistance to indigents, courts, elections, fire protection, jails, law enforcement, law library, and recording offices, as well as the construction and maintenance of roads, bridges and other infrastructure.

Budget Process

In accordance with Chapter 111 of the Local Government Code, the County prepares an annual operating budget which serves as a financial plan for the new fiscal year beginning October 1. After publishing required public notices and conducting public hearings, the Court annually adopts a budget and establishes the tax rate. For the 2016 fiscal year, the budget was adopted on the category basis for all departments and/or funds. Commissioners' Court may transfer available funds between various

departments and categories. However, no transfer may increase the total appropriation of a fund. Chapter 111 of the Local Government Code allows Commissioners' Court to adopt supplemental budgets for limited purposes of spending grant or aid money or for capital projects through the issuance of bonds. This report includes all funds and accounts of the County for which the Court has financial accountability.

Those related entities which the Court has financial accountability control are not included in this report. Based on this criterion, the relationships of the following related entities are disclosed in Note 1 to the basic financial statements:

Potter-Randall Appraisal District
Community Supervision and Corrections Department for Potter, Randall and
Armstrong Counties

Factors Affecting Financial Condition

Financial Policies and Long-Term Planning

The financial policies and practices of Randall County include the following:

- A budget policy that follows the Texas Local Government Code §111.003 and requires a balanced budget
- Establishing a budgetary control system of monitoring and utilizing encumbrance accounting to ensure budget compliance
- A policy for deposit, safekeeping and investment of funds that complies with State statutes
- A cost effective purchasing policy that utilizes central purchasing, competitive bidding, and contract administration to maximize savings and comply with legal and statutory provisions
- A policy that sets a goal for the General Fund to maintain an unassigned fund balance that sustains 2-3 months expenditures (15% - 25%) from October 1 to December 31 of each year when property taxes become due
- A policy on the issuance of long term debt to ensure long-term financial stability
- Maintaining a general fund five-year revenue and expenditure projection as well as debt capacity projections to aid long-term decision making
- Utilizing a 10-year history of financial indicators to identify past trends and gauge the impact of population growth and service demand on revenue sources

Major initiatives

The County created two Reinvestment Zones with economic development incentives. The agreement with Chermac Energy, now called Astra Wind, LLC is to promote additional development of wind energy while Lone Star Dairy Products began constructing a manufacturing plant to process raw milk into various dairy products. Both projects will increase job growth for the County. However, at the end of the fiscal year construction was not complete.

In August, the County issued certificates of obligations for \$8,685,000 to purchase and renovate a vacated sixty-four thousand square foot building. The current Amarillo Annex will be relocated to this new location, which will provide future growth needed for the courts system and election

administration. An estimated completion date for the project is December 2017. Another major initiative is the design and development to include necessary hardware, software and services of a county-wide digital trunked radio communications system for the Sheriff's Department and first responders. Randall County will issue certificates of obligation in the near future for this project estimated at a cost of \$7.4M.

Lastly, the County will participate in a cost share agreement with the Texas Department of Transportation for the expansion of Loop 335 around the City of Amarillo, which encompasses a portion of the County. Funding for this multi-million dollar project includes Federal, State and local monies. Once completed, the County anticipates future residential growth to the area.

Local economy

In addition to the diversity of industrial, retail and service industries, the County has long been a leader in the farming and ranching industries, tourism and higher education. Approximately eighty-seven percent (87%) of the County's population lives within the city limits of Amarillo with another approximately eleven percent (11%) living within the city limits of Canyon. The remaining residents live in small villages or communities scattered over the large open land areas made up of many farms and ranches. The entrance to *Palo Duro Canyon State Park*, America's second largest canyon, is located in the County, open all year around, and annually receives over half a million visitors. *Texas*, the musical drama, which will open and celebrate its 52nd season, plays nightly, except Monday, in the *Pioneer Amphitheatre* in Palo Duro Canyon from early June through mid August. *Panhandle-Plains Historical Museum*, Texas' largest history museum, located on the campus of *West Texas A & M University* (WTAMU), in the city of Canyon, has approximately 100,000 visitors each year. WTAMU, founded in 1910, offers 1 doctoral program, 39 masters programs and 58 undergraduate degree programs to approximately 9,961 students annually and is located in the city of Canyon. The park and theatre, museum and university are major contributors to the local economy through employment opportunities, tourism and consumers of local sales and services.

The County's unemployment rate of 2.9% compares favorably to the nation (4.9%) and to the state (4.6%). The County is included in the Amarillo Metropolitan Statistical Area (AMSA). Both the Canyon and Amarillo Economic Development Corporations have been successful in attracting businesses and jobs to the area which, in turn, benefits Randall County's economy.

The AMSA indicators of economic strengths and weaknesses reflect the following:

- Strengths:
 1. Used car sales are up 22%
 2. Commercial construction is up 26% from last year
 3. Job increases of 2,000 from 2015

- Weaknesses:
 1. Prices for wheat, corn and cotton are down 27%, 19% and 7%, respectively
 2. Lower commodity prices and worsening cattle market
 3. Less rain than last 2 years

Independent audit

In accordance with state statute, the County's financial statements have been audited by Doshier, Pickens & Francis, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended September 30, 2016 are free of material misstatement. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the fiscal year ended September 30, 2016 are fairly presented in conformity with GAAP. The opinions rendered by Doshier, Pickens & Francis, LLC, are included in the appropriate sections of this report.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Randall County for its comprehensive annual financial report (CAFR) for the fiscal year ended September 30, 2015. This was the twelfth consecutive year that Randall County has received this prestigious award. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it for review to GFOA.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The preparation of this report would not have been possible without the efficient and dedicated services of my entire staff and the professional services provided by our independent auditors, Doshier, Pickens & Francis, LLC. I also wish to express my gratitude to the Commissioners' Court and the District Judges for their cooperation, leadership, interest and support in planning and conducting the financial affairs of the County in a responsible and progressive manner. Furthermore, I would like to commend the Court as well as other County officials, department heads and all members of departments who assisted with and contributed to the preparation of this report.

Request for information

This financial report is designed to provide an overview of the County's finances for individuals who are interested in this information. Questions concerning any of the data provided in this report or requests for additional financial information should be addressed to the Randall County Auditor, 501 16th Street, Suite 301, Canyon, Texas 79015.

Respectfully submitted,

Karon Kantor

PART II
FINANCIAL SECTION

To The Honorable County Judge and
Commissioners Comprising the
Commissioners' Court of
Randall County, Texas

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund and the aggregate remaining fund information of Randall County, Texas as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise Randall County, Texas' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of Randall County, Texas as of September 30, 2016, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 3 – 16), the budgetary comparison schedules for the General Fund and the Youth Center of the High Plains; Retirement Plan – Schedule of Changes in Net Pension Liability and Related Ratios and the Schedule of Employer Contributions, and Other Post-Employment Benefits – Schedule of Funding Progress (pages 60 – 64) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers them to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Randall County, Texas' basic financial statements. The introductory section and statistical tables are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

The combining non-major and agency fund financial statements and the non-major fund budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 16, 2017, on our consideration of Randall County, Texas' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Randall County, Texas' internal control over financial reporting and compliance.

Randall County, Texas
Management's Discussion and Analysis
For the Year Ended September 30, 2016

As management of Randall County, Texas (County), we offer readers this narrative overview and analysis of the financial activities of the County for the fiscal years ended September 30, 2016 and 2015. In accordance with the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 34 – *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the County has presented comparative data in this narrative.

We encourage the readers of these financial statements to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages iv – viii of this report.

Financial Highlights

These financial highlights summarize the County's financial position and operations as presented in more detail in the rest of the Basic Financial Statements, as listed in the accompanying table of contents.

- The assets of the County exceeded its liabilities at the close of the most recent fiscal year by approximately \$44 million (*net position*). Of this amount, approximately \$13.5 million (*unrestricted net position*) is available to meet the County's ongoing obligations to citizens and creditors.
- The County's total net position increased by approximately \$3 million. Charges for services in all activities decreased approximately \$320 thousand over prior year. Total operating and capital grants decreased by approximately \$628 thousand. General revenues increased by approximately \$2.5 million. General property tax increased by approximately \$2.4 million to meet operating expenses and debt property tax increased by \$285 thousand due to an increase in the debt rate. The County experienced a gain of \$37 thousand on disposed assets.
- Total net position for the Randall County Assistance District #1 increased by \$222 thousand over the prior year.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of approximately \$22.4 million. Of this total amount, approximately \$10.6 million is available for spending at the County's discretion. The total available for spending is the unassigned portion of fund balance of the General Fund, which is approximately 26% of the total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Randall County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Randall County, Texas
Management's Discussion and Analysis
For the Year Ended September 30, 2016

Basic Financial Statements

Government-Wide Financial Statements - The government-wide financial statements contain the *statement of net position* and the *statement of activities*, described below:

The *statement of net position* presents information on all of the County's assets and liabilities (including capital assets and short-term and long-term liabilities), with the difference between the two reported as *net position* using the accrual basis. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents a comparison between direct expenses and revenues for each of the County's functions/programs (referred to hereinafter as activities). Direct expenses are those that are specifically associated with an activity and are therefore clearly identifiable with that activity. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not programmatic are presented as general revenues, with certain limited exceptions. The comparison of direct expenses with revenues from activities identifies the extent to which each activity is self-financing or draws from any general revenues the County might generate. The governmental activities (activities that are principally supported by taxes and intergovernmental revenues) of the County include administrative, elections, environmental protection, extension service, financial administration, health and welfare, judicial, public facilities, public safety and road and bridge. All changes in net position are reported as soon as the underlying event giving rise to the change occurs (accrual basis), *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, fines, and fees as well as earned but unused vacation leave).

The County includes one separate legal entity, the Randall County Assistance District #1. Although legally separate, this "Component Unit" is important because the County is financially accountable for the entity. The Government Wide Financial Statements can be found on pages 17-19 of this report.

Fund financial statements - A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the fund financial statements is on major funds. Major funds are those that meet minimum criteria (a percentage of assets, liabilities, revenues, or expenditures/expenses of fund category and of the governmental and enterprise funds combined), or those that the County wishes to report as major. Non-major funds are aggregated and shown in a single column (combining schedules of non-major funds are included in the CAFR following other supplementary information). All of the funds of the County can be divided into three categories: *governmental funds*, *proprietary funds*, and *fiduciary funds*:

Governmental funds - Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike

Randall County, Texas
Management's Discussion and Analysis
For the Year Ended September 30, 2016

the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements (*modified accrual* versus *accrual* basis of accounting, and *current financial resources* versus *economic resources*, respectively), it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Reconciliations are provided for both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances to facilitate the comparison between *governmental funds* and *governmental activities*.

The County maintains thirty-one (31) individual governmental funds. Information has been presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Youth Center of the High Plains and the Justice Center/Annex Funds, which are considered major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds are provided in the form of *combining statements* following other supplementary information in the CAFR. A budgetary comparison schedule has been provided for the General Fund, and the major special revenue fund in the required supplemental information section, and the major capital projects fund in the other supplemental information section. The governmental fund financial statements can be found on pages 20-24 of this report.

Proprietary fund financial statements - The County maintains one (1) proprietary fund. Proprietary funds are used to account for the government's business type activities. These funds use the economic resource measurement focus and accrual basis of accounting as presented in the government-wide financial statements. There are two types of proprietary funds: (1) *Enterprise Funds* and (2) *Internal Service Funds*. *Enterprise funds*, which the County does not have, are used in situations where a fund provides services primarily to customers other than the government. An *internal service fund* is an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses an internal service fund to account for its partially self-funded employee healthcare. The proprietary fund financial statements can be found on pages 25-27 of this report.

Fiduciary fund financial statements - The County maintains ten (10) agency funds reported as a fiduciary fund type. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Agency funds are the only type of fiduciary funds included in the County's financial statements. The fiduciary fund financial statements can be found on page 28 and individual statements on pages 112-113 of this report.

Notes to Basic Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide financial statements and fund financial statements. The Notes to Basic Financial Statements can be found on pages 28-59 of this report.

Required Supplementary Information Other Than MD&A - Following the basic financial statements and the accompanying notes are certain required supplementary information (RSI). The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual for General Fund and the Youth Center of the High Plains Fund are presented here. Presented in the RSI are schedules relating to the County's pension liability, certain ratios and contributions. A schedule of the funding progress of the County's other post-employment benefits is also included. Required Supplementary Information can be found on pages 60-64.

Other Supplementary Information - The Schedule of Revenues – Budget to Actual and the Schedule of Expenditures – Budget to Actual for the General Fund is presented here to compare budget to actual at the category level of compliance. The Health Care Fund, an internal service fund, Schedule of Revenues, Expenses and Changes in Net Position – Budget to Actual is presented for information only since its net financial activity is reported in the governmental activities of the government wide statements. The Randall County Center/Annex Fund, a capital project fund, Schedule of Revenues, Expenses and Changes in Net Position – Budget and Actual is presented. Other Supplementary Information can be found on pages 65-75.

Combining Statements and Individual Fund Schedules - The combining statements referred to earlier in connection with non-major governmental funds are presented as well as the individual statements and schedules of budgetary comparison. Individual fund schedules compare budget to actual at the legal level of compliance for all other budgeted funds. Also presented are combining statements of fiduciary agency funds. Combining fund financial statements and individual fund schedules can be found on pages 76-113 of the County's CAFR.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by approximately \$44 million (*net position*) at the close of the most recent fiscal year.

Approximately \$22 million or 50% of the County's net position are its net investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire those assets that is still outstanding at the close of the fiscal year. The County uses these capital assets to provide services to its citizens; consequently, these assets are *not* available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Restricted net position is approximately \$8.6 million. The majority of this amount is restricted by enabling legislation for state authorized revenues to be expended for specific purposes. These are identified by major category. Approximately \$91 thousand is restricted for debt service.

The remaining balance, approximately \$13.5 million (*unrestricted net position*) may be used to meet the County's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the County is able to report positive balances in all categories of net position, both for the government as a whole, as well as for its separate governmental activities. During the current fiscal year, the County's net position increased by approximately \$2 million.

Governmental Activities - Governmental activities increased the County's total net position. Governmental expenses increased \$1.1 million from 2015. Administrative and Elections expenses increased \$212 thousand and \$48 thousand, respectively. Information Technology increased \$60 thousand due to position upgrades and operating increases for licenses and software. The additional expense in Administrative was for an increase in property insurance and inquests. Election expense increased due to an increase in operating supplies and salaries upgrades to several positions. Public Safety expenses increased \$759 thousand. The Sheriff's Department salaries and fringe increased due to the addition of two new employees and converting a part time position into a full time position as well as a several position upgrades; the Fire Department increased \$492 thousand due to operating expenses increasing. The Youth Center facility experienced an increase in salaries and fringe for an additional three juvenile supervision officers. Road and Bridge expenses decreased \$122 thousand due to a decrease in road materials for road maintenance. Program revenues changed by a slight \$948 thousand. Operating and Capital Grants and Contributions decreased \$628 and Charges for Services decreased by \$320 thousand. General revenues for property taxes increased \$2.4 million over the prior year due to modest growth in the property tax base and a slight tax increase.

The graph below reflects the sources of the revenues and the percentage each source represents to the total.

Financial Analysis of the County's Funds

Governmental funds - The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *non-spendable, restricted, committed, assigned and unassigned* resources. Such information is useful in assessing the County's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances approximating \$22.4 million. Of that amount, \$288 thousand are prepaid items and inventories that are non-spendable. Legislative restrictions have been placed on fees of offices, as well as indigent health care and bail bonds. Approximately \$2.9 million are funds that have specific purposes authorized by Commissioners' Court and a Juvenile Board. Of that amount, \$873 thousand has been assigned to balance the 2017 General Fund Budget.

The General Fund is the chief operating fund of the County. The General Fund carries out functions assigned by the State of Texas. Property taxes, sales taxes, fees and fines support general fund operations. Intergovernmental revenues, such as jail bed revenue from federal and local

Randall County, Texas
Management's Discussion and Analysis
For the Year Ended September 30, 2016

sources reimburse their use of the county jail. Other governmental revenues such as federal grants and state aid provide additional support for law enforcement, fire protection, administrative and court expenditures. At the end of the current fiscal year, unassigned fund balance of the General Fund was approximately \$10.6 million, while total fund balance approximated \$13.5 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents approximately 26% of total General Fund expenditures, while total fund balance represents approximately 33.1% of that same amount. As the demand for services continues to increase, the General Fund Balance has consistently remained stable over the past several years. It has been the policy of management to maintain the county's unassigned general fund balance at a level equaling 2 - 3 months' expenditures or 15% - 25% of annual budgeted expenditures.

Total revenues and transfers to the General Fund increased from the prior year by \$2.8 million. Property taxes increased by approximately \$2.4 million from the result of reappraisals, growth in the tax base and a slight tax increase. Non-court fees increased \$136 thousand while civil fees grew \$60 thousand. There was no change in criminal court fines and fees from the prior year; Intergovernmental revenue increased \$81 thousand due to an unexpected increase in jail bed revenue throughout the year. Miscellaneous revenues increased by \$34 thousand due to an increase in interest earnings.

General Fund expenditures increased approximately 7% from 2015 due to an increase in salaries and fringe benefits, operations for law enforcement and materials for road repairs for the Road Department. Transfers from the General Fund decreased from 2015 largely due to the closing of the Next Step Facility during the fiscal year.

The Youth Center of the High Plains is a detention facility utilized by both Randall County and Potter County. Beds are made available to surrounding counties as they become available. The cost of operating the Youth Center is supported by the General Fund and Potter County on a 50% basis of expenditures less revenues. Other counties are billed on a daily rate. This fund maintains a reserve of \$125,000 for unforeseen events.

General Fund Budgetary Highlights

The original and final amended budget projected a decrease in fund balance of approximately \$1 million. Budget Amendments authorizing \$1,034,023, in revenues or expenditures were approved for the following events:

- \$55,917 increase in revenue and equipment for the Constable, Precinct Place 4 for a vehicle and equipment from a partial grant award
- \$383,565 increase in revenue for the purchase of a fire truck for the Fire Department from a cost share grant from the Texas Forest Service
- \$23,175 revenue increase from proceeds from asset disposal for a new vehicle for the Fire Department
- \$373,049 revenue increase from proceeds from asset disposal for the replacement of a new roof for the Fire Department/Event Center after weather related incident
- \$176,774 increase in expense for a new property tax system for the Tax Office
- \$21,543 increase in revenue for the purchase of an audio visual system as a backup command station for the Fire Department

General fund actual revenues exceeded budget by \$918 thousand. Licenses and fees exceeded estimates by approximately \$218 thousand. Ad Valorem, sales and miscellaneous taxes exceeded estimates by approximately \$28 thousand and \$54 thousand, respectively due to efficient tax collections and conservative estimates on vehicle sales tax during the budgeting process. Fines and forfeitures also exceeded estimates by \$26 thousand.

General Fund expenditures came in under budget by approximately \$1.6 million. General fund expenditures were 96% of amended budget due primarily to conscientious budget monitoring and cost saving strategies.

Capital Assets and Debt Administration

Capital Assets - The County's investment in capital assets for its governmental activities as of September 30, 2016 was approximately \$67 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, equipment, construction in progress, and other improvements.

Major capital assets constructed, purchased, and donated during the current fiscal year were:

- \$93,371 for property tax software and hardware for the Tax Office
- \$586,620 for replacement vehicles and equipment for the Road Department
- \$11,762 for a digital video presentation system for the Extension Service
- \$18,150 for a replacement vehicle for the District Attorney
- \$128,392 for a replacement vehicle and equipment for the Fire Department
- \$234,700 for Sheriff's Department replacement vehicles
- \$140,911 for equipment for the Sheriff's Department
- \$2,681,588 for the purchase of a new building to relocate the Amarillo Annex

Total	\$ 56,940	\$ 43,834

State statutes limit the amount of general obligation debt a governmental entity may issue to 5% of its total assessed valuation. The current debt limitation for Randall County is approximately \$441 million, which is significantly in excess of Randall County's outstanding general obligation debt of \$43.6 million.

Randall County received its most recent rating of 'AA' from Standard & Poor's Rating Service in August 2016 for the combination tax and limited-pledged revenue Certificates of Obligation, Series 2016. The County also has a rating of "Aa3" from Moody's Investors Service from May 2010 when Certificates of Obligation, Series 2010 were issued.

Additional information on Randall County's long-term debt can be found in Notes to the Financial Statements, Note 9 and 10 on pages 43-46 of this report.

Economic Factors and Next Year's Budget and Rates

A large share of the Randall County population is in the Amarillo MSA and benefit from its diverse job market and solid banking industry. While pushing through a slight downturn the economy saw higher employment but retail sales remained level with one year ago. Cattle and agriculture hindered beneficial growth. Ranchers have benefited from the moisture but wheat, corn and cotton prices were all down considerably from the prior twelve months. Commercial construction and housing is still strong in Amarillo.

Randall County remains faced with the challenge of providing needed services in a growing county while considering the financial burden on its citizens. New employees and upgrades as well as additional capital expenditures to provide increased services was again a consideration in preparing Randall County's budget for the fiscal year beginning October 1, 2016 and ending September 30, 2017 . After much discussion, the decision was made to increase the county property tax rate by 2.14%.

Careful consideration had been given to maintaining adequate reserves, so that \$873 thousand of the General fund's balance could be used in addition to a tax increase to balance the 2017 budget.

FOR THE YEAR ENDED SEPTEMBER 30, 2016**

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds	\$	7,715,517
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		1,353,984
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net changes in fund balance.		(4,479)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		(27,288)
Internal service fund is used to account for the health self-insurance program of the County. The net income of certain activities of internal service funds is reported with governmental activities.		1,206,095
Debt proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayment of principal is an expenditure in the governmental funds, but reduces the liability in the Statement of Net Position.		(6,314,609)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		(448,439)

RANDALL COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Randall County, Texas (County) have been prepared in conformity with generally accepted accounting principles (GAAP) applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant accounting and reporting policies of the County are described in the following notes to the financial statements.

A. Financial Reporting Entity

The County is a public corporation and a political subdivision of the State of Texas. The County is governed by the Commissioners' Court, composed of four County Commissioners and the County Judge, all of whom are elected officials.

The County provides a variety of services to advance the welfare, morale, comfort, safety and convenience of the County and its citizens.

The definition of the reporting entity is based primarily on the notion of financial accountability. The elected officials governing the County are accountable to their constituents for their public policy decisions, regardless of whether those decisions are carried out directly through the operations of the County or by their appointees through the operations of a separate entity. Therefore, the County is not only financially accountable for the organizations that make up its legal entity, but also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either, it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on the County.

Depending upon the significance of the County's financial and operational relationships with various separate entities, the organizations are classified as blended or discretely presented component units, related organizations, joint ventures, or jointly governed organizations, and the financial disclosure is treated accordingly.

Discretely Presented Component Unit – The Randall County Assistance District #1 (District) was created in December 2011 by Commissioners' Court and supported in Texas Local Government Code Chapter 387 for the purpose of providing firefighting and fire prevention services and the promotion of economic development encompassing all of the County except for those areas within the corporate boundaries of the City of Amarillo, the City of Canyon and the City of Happy. The District is governed by the same Commissioners' Court as the County. The District receives a sales and use tax of one-half of one percent to support the District's operations. Financial information is reported in a separate column from the financial information presented for the primary government itself and presented on the Statement of Net Position and Statement of Activities. There are no separately issued financial statements for the component unit.

Related Organizations – Where the Commissioners' Court is responsible for appointing a majority of the members of a board of another organization, but the County's accountability does not extend beyond making such appointments, disclosure is made in the form of the relation between the County and such organization. Based on the foregoing criteria, the following entities are not part of the County and are not included in the accompanying financial statements:

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

A. Financial Reporting Entity – Continuation

Potter-Randall Appraisal District – The County Commissioners appoint one member to the Appraisal District Board. Funding is based on the total roll values of the participating entities. The County Commissioners have no control over budgeting or operation of the Appraisal District.

Community Supervision and Corrections Department for Potter, Randall and Armstrong Counties – The Community Supervision and Corrections Board is comprised of five District Judges, two County Court-at-Law Judges, and three County Judges. The Department is funded by the State of Texas and fees from participants. The County Commissioners have no control over budgeting, funding or other operations of this Department.

B. Financial Statement Presentation, Measurement Focus and Basis of Accounting

Government-wide Statements

Government-wide financial statements consist of the Statement of Net Position and the Statement of Activities. These statements report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenue, are reported separately from *business-like activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component unit* for which the primary government is financially accountable. The County has no business-like activities, except the internal service fund.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Under this measurement focus, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of cash flows. Property taxes are recognized as revenues in the year for which they are levied. Fines and forfeitures are recognized when they have been assessed and adjudicated and earned. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

The Statement of Activities demonstrates the degree to which the direct expenses of the County's programs are offset by those programs' revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Certain indirect costs have been included as part of the program expenses reported for the various functional activities. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the program and 2) grants and contributions that are restricted to meeting the operational and/or capital requirements of a particular program. Taxes and other items not included among program revenue are reported instead as *general revenue*. In miscellaneous general revenues are non-program specific contributions including capital assets contributions.

Fiduciary funds are excluded in the government-wide presentation of the financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

B. Financial Statement Presentation, Measurement Focus and Basis of Accounting – Continuation

Fund-level Statements

All governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The County considers property taxes and other revenues as available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. Principal and interest on governmental long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. Grant and entitlement revenues are also susceptible to accrual. These funds are accounted for on a spending “financial flow” measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of “available spendable resources.” Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

All proprietary funds, including internal service and fiduciary funds, including agency funds, are accounted for using the accrual basis of accounting. Revenues are recognized when earned, and expenses when they are incurred. Claims incurred but not reported are included in payables and expenses. These funds are accounted for using an economic resources measurement focus. The agency funds are custodial in nature and involve no measurement of results of operations.

The accounts of the County are organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. Government resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled.

Funds are classified into three categories: Governmental, Proprietary and Fiduciary.

The County reports the following major governmental funds:

General Fund – The *General Fund* is the County’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Youth Center of the High Plains – The *Youth Center of the High Plains Special Revenue Fund* accounts for billings to other counties for juvenile care services. The revenue is used to operate a juvenile detention center.

Randall County Justice Center / Annex – The *Randall County Justice Center / Annex Fund* accounts for bond proceeds which are to be used for the construction of the new Amarillo annex.

B. Financial Statement Presentation, Measurement Focus and Basis of Accounting – Continuation

Additionally, the County reports the following fund types:

Special Revenue Funds – *Special Revenue Funds* account for the proceeds of specific revenue sources (other than fiduciary funds) that are legally restricted to expenditures for specified purposes.

Capital Projects Funds – *Capital Projects Funds* account for financial resources to be used for the acquisition or construction of major capital facilities.

Debt Service Fund – The *Debt Service Fund* accounts for the accumulation and disbursement of resources associated with the County’s debt obligations. Property taxes and interest income provide the resources necessary to pay the annual principal and interest payments.

Internal Service Fund – The *Internal Service Fund* accounts for the financing of services provided by one department to other departments of the County on a cost-reimbursement basis. The Health Self-Insurance program of the County is accounted for as an Internal Service Fund.

Agency Funds – *Agency Funds* account for assets received by the governmental unit in its capacity as trustee or agent for the County, other governmental entities or individuals. The receipts and disbursements of such funds are governed by the terms of the statutes, ordinances, regulations or other authority. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The County’s *Agency Funds* consist of amounts collected by the individual County fee offices for state court costs, state vehicle registration fees, victim restitution payments, merchant hot check fees, inmate trust funds, and District and County Clerk trust beneficiaries.

All of the County’s fiduciary funds are agency funds and are reported in the agency fund financial statements. However, because their assets are held in a trustee or agent capacity and therefore not available to support County programs, these funds are not included in the government-wide statements.

C. Deposits and Investments

The County’s cash and cash equivalents are considered to be cash on hand, demand deposits, government securities, money market funds, and the Texas Local Government Investment Pool. State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer’s Investment Pool.

The County records investments at fair value in accordance with provisions of GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. All investment income is recognized as revenue in the appropriate fund’s statement of revenues, expenditures and changes in fund balance. Deposit and Investment Risk Disclosures are in accordance with GASB Statement No. 40.

The County is required by Government Code Chapter 2256, The Public Funds Investment Act (“Act”), to adopt, and publicize an investment policy. That policy must be written, primarily emphasize safety of principal and liquidity, address investment diversification, yield, and maturity and the quality and capability of investment management, and include a list of the types of authorized investments in which the investing entity’s funds may be invested, and the maximum allowable stated maturity of any individual investment owned by the entity.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

C. Deposits and Investments - Continuation

The Act requires an annual audit of investment policies. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the area of investment practices, management has established and reports appropriate policies. The County adheres to the requirements of the Act. Additionally, investment practices of the County are in accordance with local policies.

D. Receivables and Payables

All trade and property tax receivables are shown net of an allowance for uncollectible. Trade accounts receivable in excess of 180 days comprise the trade accounts receivable allowance for uncollectible. The property tax receivable allowance is equal to 25 percent of outstanding property taxes at September 30, 2016.

Property taxes are levied on October 1 and attach as an enforceable lien on property as of January 1. Statements are mailed on October 1, or as soon thereafter as possible, and are due upon receipt. All unpaid taxes become delinquent if not paid before February 1 of the following year.

Payables consist of vendor obligations for goods and services and funds payable to others when the criteria for their release have been met.

E. Inventories and Prepaid Items

Inventories, which consist of road materials, fuel, and food, are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The County uses the consumption method to record its prepaid items which requires reporting these items as assets and deferring the recognition of expenditures until the period in which prepaid items are used or consumed. In the fund financial statements, they are offset by a designation of nonspendable fund balance which indicates they do not represent “available spendable resources”.

F. Interfund Transactions

During the course of normal operations, the County has many transactions between funds. The accompanying fund level financial statements reflect as transfers the resources provided and expenditures used to provide services, construct assets and meet employee health claims in excess of budgeted amounts. Interfund services provided and used are not eliminated in the government-wide presentation. The effect of all other interfund activity has been eliminated in the government-wide financial statements.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure (e.g. roads, bridges, sidewalks and similar items), are reported in the governmental column in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

G. Capital Assets – Continuation

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Buildings, plant, equipment and infrastructure are depreciated using the straight-line method over the following useful lives:

Assets	Years
Infrastructure (roads and bridges)	20 – 40
Buildings and improvements	10 – 50
Vehicles	6 – 12
Furniture and equipment	5 – 15

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government reports the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Additionally, the government reports deferred amounts related to the pension plan reported in the government-wide statement of net position. These deferred amounts include pension contributions, economic/demographic losses, and deficient earnings.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

I. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick leave benefits. Compensated absences are reported in the governmental funds only if they have matured. Vacation and sick leave are accrued when incurred in the government-wide financial statements.

J. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable

bond premium or discount. Bond issuance costs are expensed as incurred. The County has no business-type activities, except the internal service fund.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs withheld from the actual debt proceeds received are reported as debt service expenditures.

K. Pensions

For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Texas County and District Retirement System Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Government-wide Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three categories.

Net Investment in Capital Assets – This amount consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds.

Restricted Net Position – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments, enabling legislation, or constitutional provisions.

Unrestricted Net Position – This amount includes all net position that does not meet the definition of “net investment in capital assets” or “restricted net position.”

M. Governmental Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balance for governmental funds can consist of the following:

Nonspendable Fund Balance – includes amounts that are (a) not in spendable forms, or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

Restricted Fund Balance – includes amounts that are restricted for specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of the resource providers.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation

M. Governmental Fund Balances – Continuation

Committed Fund Balance – includes amounts that can only be established, modified, or rescinded by a formal action of the County’s highest level of decision-making authority, the Commissioners’ Court.

Assigned Fund Balance – includes amounts intended to be used by the County for specific purposes that are neither restricted nor committed. The Commissioners’ Court has the authority to determine and designate the purpose for fund balance to be assigned.

Unassigned Fund Balance – this classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

N. Fund Balance Policies

When the County incurs an expenditure for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first, then unrestricted funds. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Committed fund balance amounts may be used for other purposes with appropriate action by the Commissioners’ Court to either modify or rescind a fund balance commitment. Commitments are typically done through adoption and amendment of the budget.

The County’s highest level of decision-making authority is the Commissioners’ Court. The Court has not yet delegated the authority to assign fund balance amounts to a specific individual nor does it have a policy to authorize the assignment of fund balance outside the Court.

O. Funds Balances Restricted and Assigned

P. Implementation of New Standards

The County implemented Governmental Accounting Standards Board (GASB) No. 77, *Tax Abatement Disclosures*. This standard requires governments that enter into tax abatement agreements to disclose the following information about the agreements: 1) brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients, 2) the gross dollar amount of taxes abated during the period, and 3) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains, “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this difference are as follows:

Bonds and capital lease payable	\$ (45,420,857)
Accrued interest payable	(232,101)
Deferred charge on refunding	229,524
Net pension liability	(9,708,784)
Net other post employment benefit obligation	(526,681)
Compensated absences	<u>(1,283,957)</u>
 Net adjustment to decrease fund balance - total governmental funds to arrive at net position - governmental activities	 <u><u>\$ (56,942,856)</u></u>

Explanation of Certain Differences Between the Governmental Fund Statement of Revenue, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental fund* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense.” The details of this difference are as follows:

Capital outlay	\$ 4,554,074
Depreciation expense	<u>(3,200,090)</u>
 Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	 <u><u>\$ 1,353,984</u></u>

Another element of that reconciliation states, “The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net changes in fund balance.” The details of this difference are as follows:

Proceeds from disposal of assets	\$ (41,535)
Gain on disposal of assets	<u>37,056</u>
 Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	 <u><u>\$ (4,479)</u></u>

Another element of that reconciliation states, “Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.” The details of this are as follows:

Property tax	\$ (27,288)

Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ (27,288)

Another element of that reconciliation states, “Debt proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayment of principal is expenditure in the governmental funds, but reduces the liability in the Statement of Net Position.” Neither transaction, however, has any effect on net position. The details of this difference are as follows:

Debt Issued:	
Bond	\$ (8,685,000)
Repayment of principal	2,776,685
Payment to escrow agent for refunding	
Amortization of bonds premium	(380,310)
Amortization of refunding charge	(25,984)

Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net position of governmental activities	\$ (6,314,609)
	<hr/> <hr/>

Another element of that reconciliation states, “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this difference are as follows:

Change in estimated liability for compensated absences	\$ (44,680)
Change in accrued interest	10,048
Change in net pension liability	(6,609,211)
Change in deferred outflows of resources - pension contributions	(35,587)
Change in deferred outflows of resources - pension economic/demographic losses	(16,851)

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

Annual budgets are adopted on a basis consistent with GAAP for the General Fund, Youth Center of the High Plains, Randall County Justice Center / Annex, County Clerk Archive, County Clerk Preservation, County Clerk Records Management, County Clerk Technology, County Records Management, Criminal District Attorney Check Collection/Disbursement, Criminal District Attorney Forfeiture, Criminal District Attorney State Deposits, District Clerk AGC IV – D, District Clerk Archive, District Clerk Preservation, District Clerk Records Management, District Clerk Technology, Election, Jail Commissary, Justice Center & Courthouse Security, Justice of the Peace Security, Justice of the Peace #1 Technology, Justice of the Peace #4 Technology, Juvenile Probation Department, Law Library, Next Step, Pre-Trial Diversion, Sheriff's Forfeiture, Tax Assessor/Collector Motor Vehicle Inventory Tax, Unclaimed Property, Juvenile Center Improvement, and Debt Service. All annual appropriations lapse at fiscal year-end.

Prior to the beginning of the fiscal year, the County prepares a budget for the next succeeding fiscal year. The budget includes proposed expenditures and the means of financing them. Meetings of the Commissioners' Court are held to discuss the proposed budget. These meetings are open to public discussion and require at least ten days' notice of the meeting.

The appropriated budget is prepared by fund and department on the category level. Transfers of appropriations between department, fund and category require the approval of the Commissioners' Court. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is the category level. Supplemental budgetary appropriations in other funds were not considered material.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year. The County had no outstanding encumbrances at year-end.

NOTE 4 – DEPOSITS AND INVESTMENTS

The County’s demand deposits and bank certificates of deposit are fully covered by collateral held in the County’s name by the County’s agents. The County’s collateral agreements require the market value of securities held by its agents to exceed the total amount of cash and investments held at depository banks at all times.

A reconciliation of cash, as shown in the Governmental Funds, Internal Service Fund and Agency Funds Balance Sheets for the primary government is as follows:

Cash on hand - governmental funds	\$ 13,578
Carrying amount of bank deposits - governmental funds (0.47% interest rate)	13,807,452
Carrying amount of TexPool deposits - governmental funds (0.29% interest rate)	209,196
Carrying amount of Texas CLASS deposits - governmental funds (0.62% interest rate)	<u>10,055,060</u>

 Carrying amount of bank deposits - agency funds	 <u>3,675,045</u>
 Total agency funds	 <u>3,675,045</u>
 Total	 <u><u>\$ 29,575,304</u></u>

The County’s investment policies are in accordance with the laws of the State of Texas. The policies identify authorized investments and investment terms, collateral requirements and safekeeping requirements for collateral.

Interest Rate Risk

In accordance with its investment policy, the County minimizes the risk of loss due to interest rate fluctuations by limiting the weighted average of its operating fund portfolio to less than 270 days. The maximum allowable maturity shall be no longer than two years.

Credit Risk

The County is authorized by statute and by depository contract to invest in obligations of the United States of America, direct obligations of the State of Texas, obligations of state agencies, counties, cities, and other political subdivisions of any state having been rated not less than “A” or its equivalent, certificates of deposit issued by state and national banks that are guaranteed insured or secured by obligations described above having a market value of not less than 110% of the principal amount of the certificates, money market mutual funds regulated by the SEC with a dollar weighted average portfolio maturity of 90 days or less and eligible investment pools organized and operating in compliance with the Public Funds Investment Act that have been approved by the Commissioners’ Court.

The Texas Treasury Safekeeping Trust Company (TexPool). TexPool is a public funds investment pool created pursuant to the Interlocal Cooperation Act of the State of Texas. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The

advisory board members review the investment policy and management fee structure.

TexPool operates in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than market value to report net position to compute share prices. Accordingly, the fair value of the assets in TexPool is the same as the value of TexPool shares.

Texas CLASS (Texas Cooperative Liquid Assets Securities System) is a local government pool emphasizing safety, liquidity, convenience, and competitive yields. Since 1966, Texas CLASS has provided Texas public entities a safe and competitive investment alternative. Texas CLASS invests only in securities allowed by the Texas Public Funds Investment Act. The pool is governed by a board of trustees, elected annually by its participants. Texas CLASS is rated ‘AAAm’ by Standard and Poor’s Rating Service.

Concentrations of Credit Risk

The County’s policy is to limit the investments in obligations of states, agencies, counties, cities, and other political subdivisions of any state to 50% of the County’s portfolio.

Custodial Credit Risk

In accordance with state and County investment policies, County investments are insured, registered, or securities held by the County’s agent are in the name of the County.

NOTE 5 – RECEIVABLES

Receivables as of year-end for the County’s general, other major and nonmajor governmental and internal service funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Other Governmental	Internal Service Fund	Total
Receivables:				
Accounts	\$ 349,503	\$ 73,025	\$ 379,767	\$ 802,295

Less: allowance for uncollectible	16,890,423	152,594	-	17,043,017
Net total accounts receivable, net	<u>\$ 732,492</u>	<u>\$ 107,912</u>	<u>\$ 379,767</u>	<u>\$ 1,220,171</u>

Governmental funds report *deferred inflows of resources* in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the governmental funds were for delinquent property taxes receivable and miscellaneous unearned revenues.

NOTE 9 – GENERAL OBLIGATION BONDS – Continuation

During the year ended September 30, 2014, the County issued \$5,715,000 of Certificates of Obligation, Series 2013 to provide resources for the purposes of paying contractual obligations incurred for acquiring, renovating, and equipping the Multi-Purpose Building, to acquire land for county parking facilities, and renovate elevators for the Randall County Finance Building. Principal payments on the Certificates of Obligation, Series 2013 are made annually, each August 1 with interest payments made semi-annually, each February 1 and August 1 until maturity on August 1, 2034. Interest rates range from 2% to 4% on the Certificates of Obligation, Series 2013.

During the year ended September 30, 2016, the County issued \$8,685,000 of Certificates of Obligation, Series 2016 to provide resources for the purposes of paying contractual obligations incurred for acquiring, renovating, and equipping the Randall County Justice Center/Annex. Principal payments on the Certificates of Obligation, Series 2016 are made annually, each August 1 with interest payments made semi-annually, each February 1 and August 1 until maturity on August 1, 2036. Interest rates range from 2% to 4% on the Certificates of Obligation, Series 2016.

Advance Refunding

During the year ended September 30, 2014, the County issued \$3,615,000 of General Obligation Refunding Bonds, Series 2013 with an interest rate of 2.8%. The proceeds were used to advance refund \$3,255,000 of outstanding Certificates of Obligations, Series 2005 which had interest rates ranging from 3.5% to 5.0%. The net proceeds of \$3,558,145 (after payment of \$56,855 in underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payment on the refunded bonds. As a result, a portion of the Certificates of Obligation, Series 2005 are considered defeased and the liability for those bonds has been removed from the statement of net position. Principal payments on the General Obligation Refunding Bonds, Series 2013 are made annually each August 1 with interest payments being made semi-annually each February 1 and August 1 until maturity on August 1, 2025. The County will levy ad valorem tax for the payments of the principal and interest.

The reacquisition price exceeded the net carrying amount of the old debt by \$303,145. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt. The County advanced refunded the Certificates of Obligation, Series 2005 to reduce its total debt service payments over eleven years by \$316,986 and to obtain an economic gain (difference between the present values of the debt service payments of the old and new debt) of \$270,108.

During the year ended September 30, 2015, the County issued \$8,450,000 of General Obligation Refunding Bonds, Series 2015 with an interest rate of 1.49%. The proceeds were used to advance refund \$2,630,000 of outstanding Certificates of Obligations, Series 2005 which had interest rates ranging from 3.5% to 5.0% and \$5,740,000 of General Obligation Refunding, Series 2005 which had interest rates ranging from 3.25% to 5.0%. There were no additional proceeds after payment of \$80,000 in underwriting fees and other issuance costs. As a result, a portion of the Certificates of Obligation, Series 2005 and General Obligation Refunding, Series 2005 are considered defeased and the liability for those bonds has been removed from the statement of net position. Principal payments on the General Obligation Refunding Bonds, Series 2015 are made annually each August 1 with interest payments made semi-annually, each February 1 and August 1 until maturity on August 1, 2021. The County will levy ad valorem tax for the payments of the principal and interest.

The County advanced refunded the Certificates of Obligation, Series 2005 and General Obligation Refunding, Series 2005 to reduce its total debt service payments over six years by \$588,507 and to obtain an economic gain (difference between the present values of the debt service payments of the old and new debt) of \$561,359.

The County paid interest expense of \$1,290,204 during the year ended September 30, 2016.

The OPEB liability is estimated using the actuarial methods and assumptions as further described in Note 16. Typically, the General Fund has been used to liquidate the OPEB liability.

NOTE 11 – COMPENSATED ABSENCES

Regular full-time employees are entitled to vacations of up to 32 days per year based on years of service. Vacation time earned, but not taken, of up to one week may be carried beyond one anniversary year and paid at termination. Sick leave is eligible for buyout annually and any unused balance is forfeited at termination. Those eligible for retirement are eligible to receive 50% of their Sick Leave balance, at retirement, not to exceed 160 hours. Compensatory time is limited and if not used, it is paid as overtime. Holiday hours are due to be paid within twelve months.

Also for the governmental activities, compensated absences are generally liquidated by the General Fund.

NOTE 12 – RISK MANAGEMENT

The County is exposed to various risks of loss relating to general liability, the accidental loss of real and personal property, damage to County assets, errors and omissions and personnel risks which relate to workers' compensation. The County provides for the management of risks through a combination of self-insurance and traditional insurance. Amounts of coverage for the above types of risk have not been subject to a significant reduction in the past year. The amounts of settlements have not exceeded insurance coverage for the past three fiscal years.

NOTE 13 – HEALTH INSURANCE

The County has maintained a partially self-insured employee health insurance benefit plan for County employees for the 20 years ended September 30, 2016. The Plan accumulates resources to pay the insured healthcare costs for the County employees and their covered dependents and was established with the intent to provide appropriate healthcare insurance to employees and minimize total health insurance cost to the County.

The Plan activities are carried on and accounted for in the Healthcare Insurance Fund, an Internal Service Fund.

The County provided \$650 per month for each employee to utilize the insurance coverage for the employee. Employees are required to contribute \$25 per month to utilize the employee coverage. Employees may authorize payroll withholding to pay for premium cost for dependent coverage.

The health insurance premiums are paid to the Healthcare Insurance Fund. These interfund transactions are treated as operating expenditures by the General Fund as it makes the aggregate premium payments. These premiums are treated as operating revenue by the Healthcare Insurance Fund as they are received or accrued.

A third-party Plan Administrator processes claims and pays bills weekly, gathers experience and cost data, and makes tentative premium calculation using the experience and cost factors it has developed. The administrative fees paid to the Plan Administrator and the services provided by the Administrator are provided by contractual agreement.

Oversight of the Plan is provided by the Healthcare Insurance Committee made up of two of the County Commissioners and various County employees. The Committee makes recommendations to the Commissioners' Court for funding, procedural and coverage changes for the Plan on an annual basis. In 2008, a health care consultant was hired by the Committee to assist with this process.

During the current year, the self-funded Healthcare Insurance Fund had stop-loss coverage in effect for all claims per individual exceeding \$100,000 and for an aggregate loss of \$1,000,000. This stop-loss insurance coverage is provided by Voya Insurance Company. Voya Insurance Company is a commercial insurer licensed to do business in Texas in accordance with the Texas Insurance Code. The Plan purchases "15/12 month" insurance, re-insurance, and stop-loss insurance to provide protection for claims, or losses, arising in one insurance period that must be paid in the following insurance period.

NOTE 14 – RETIREMENT PLAN

Plan Description

The County provides retirement, disability, and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of nontraditional defined benefit pension plans. TCDRS in the aggregate issues a Comprehensive Annual Financial Report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034 and is available at www.tcdrs.org.

Benefits Provided

The Plan provisions are adopted by the governing body of the County (employer), within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 8 or more years of service, with 20 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service but must leave their accumulated contributions in the Plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by the County.

Benefit amounts are determined by the sum of the employee’s contributions to the Plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the County within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer’s commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee’s accumulated contributions and the employer-financial monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Employees Covered by Benefit Terms

The following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	187
Inactive employees entitled to but not yet receiving benefits	348
Active employees	500

Contributions

The County has elected the annually determined contribution rate (ADCR) Plan provisions of the TCDRS Act. The Plan is funded by monthly contributions from both employee members and the County based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the County is actuarially determined annually.

The County contributed using the actuarially determined rate of 9.67% for calendar year 2016, and 9.88% for calendar year 2015. The contribution rate payable by the employee members is 7.0% for fiscal year 2016 as adopted by the governing body of the County. The employee contribution rate and the employer contribution rate may be changed by the governing body of the County within the options available in the TCDRS Act.

Net Pension Liability

The County's net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the key assumptions and methods used in this analysis:

Inflation	3.00%
Salary increases	General wage inflation component of 3.5% and a merit, promotion and longevity component that on average approximates 1.4% per year for career employees.
Investment rate of return	8.10%
Cost-of-living adjustments	Cost-of-living adjustments for Randall County are not considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-living adjustments is included in the funding valuation.

NOTE 14 – RETIREMENT PLAN – Continuation

Mortality rates were based on the RP-2000 Active Employee Mortality Table for males with a two-year set-forward and the RP-2000 Active Employee Mortality Table for females with a four-year setback, both projected to 2014 with scale AA and then projected with 110% of the MP-2014 Ultimate scale after that.

The actuarial assumptions that determined the total pension liability as of December 31, 2015 were based on the results of an actuarial experience study for the period January 1, 2009 – December 31, 2012, except where required to be different by GASB 68.

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2016 information for a 7-10 year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2013.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

NOTE 14 – RETIREMENT PLAN – Continuation

Discount Rate

The discount rate used to measure the total pension liability was 8.10%. The discount rate is the single rate of return that, when applied to all projected benefit payments results in an actuarial present value of projected benefit payments equal to the total of the following:

1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position is projected to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term rate of return, calculated using the long-term expected rate of return on pension plan investments.
2. The actuarial present value of projected benefit payments not included in (1), calculated using the municipal bond rate.

Therefore, if plan investments in a given future year are greater than projected benefit payments in that year and are invested such that they are expected to earn the long-term rate of return, the discount rate applied to projected benefit payments in that year should be the long-term expected rate of return on plan investments. If future years exist where this is not the case, then an index rate reflecting the yield on a 20-year, tax-exempt municipal bond should be used to discount the projected benefit payments for those years.

The determination of a future date when plan investments are not sufficient to pay projected benefit payments is often referred to as a depletion date projection. A depletion date projection compares projections of the pension plan's fiduciary net position to projected benefit payments and aims to determine a future date, if one exists, when the fiduciary net position is projected to be less than projected benefit payments. If an evaluation of the sufficiency of the projected fiduciary net position compared to projected benefit payments can be made with sufficient reliability without performing a depletion date projection, alternatives methods to determine sufficiency may be applied.

In order to determine the discount rate to be used by the employer we have used an alternative method to determine the sufficiency of the fiduciary net position in all future years. Our alternative method reflects the funding requirements under the employer's funding policy and the legal requirements under the TCDRS Act.

1. TCDRS has a funding policy where the Unfunded Actuarial Accrued Liability (UAAL) shall be amortized as a level percent of pay over 20-year closed layered periods.
2. Under the TCDRS Act, the employer is legally required to make the contribution specified in the funding policy.
3. The employer's assets are projected to exceed its accrued liabilities in 20 years or less. When this point is reached, the employer is still required to contribute at least the normal cost.
4. Any increased cost due to the adoption of a COLA is required to be funded over a period of 15 years, if applicable.

Based on the above, the projected fiduciary net position is determined to be sufficient compared to projected benefit payments. Based on the expected level of cash flows and investment returns to the system, the fiduciary net position as a percentage of total pension liability is projected to increase from its current level in future years.

Continued

RANDALL COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 14 – RETIREMENT PLAN – Continuation

Since the projected fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the total pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. This long-term assumed rate of return should be net of investment expenses, but gross of administrative expenses for GASB 68 purposes. Therefore, we have used a discount rate of 8.10%, net of all expenses, increased by 0.10% to be gross of administrative expenses.

NOTE 15 – POSTEMPLOYMENT DEFINED BENEFIT GROUP TERM LIFE INSURANCE PLAN

Plan Description

Randall County, Texas participates in a cost-sharing multiple-employer defined-benefit group-term life insurance plan operated by the Texas County & District Retirement System (TCDRS). This plan is referred to as the Group Term Life Fund (GLTF). This optional plan provides group term life insurance coverage to current eligible employees.

The Group Term Life Fund (GTLF) is a separate trust administered by the TCDRS board of trustees. TCDRS issues a public available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the GTLF. This report is available at www.tcdrs.org. TCDRS' CAFR may also be obtained by writing to the Texas County & District System, P.O. Box 2034, Austin, TX 78768-2034, or by calling 800-823-7782.

NOTE 15 – POSTEMPLOYMENT DEFINED BENEFIT GROUP TERM LIFE INSURANCE PLAN –
Continuation

Funding Policy

Each participating employer contributes to the GTLF at a contractually required rate. An annual actuarial valuation is performed and the contractual rate is determined using the unit credit method for providing one-year term life insurance. Randall County, Texas contributions to the GTLF for the year ended September 30, 2016, 2015, and 2014, were \$42,425, \$40,679, and \$41,025, respectively, which equaled the contractually required contributions each year.

NOTE 16 – OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Plan Description

The County provides other post-employment benefits (OPEB) to all of its full-time employees through a single-employer self-funded medical plan. The Randall County Healthcare Plan provides that an employee who meets the retirement eligibility requirements of the Texas County and District Retirement System, and who leaves the employ of the County may, upon retirement, elect to remain on the County's group medical and dental plan, as well as to continue existing spouse and dependent coverage. Coverage ceases for the member, the spouse and dependents upon the member becoming eligible for Medicare at age 65. Retirees and their spouse and/or dependents covered by the Randall County Healthcare Plan are eligible for the same health and dental care benefits as active employees, as described in the current health care manual. As of September 30, 2016 there are seven retirees and one dependent with post-employment health insurance benefits.

Funding Policy

The funding requirements of the health plan are established and may be amended by the Randall County Commissioners' Court (Court) whose authority has been assigned by Texas Local Government Code Section 157.102. The County funds the cost associated with OPEB on a current "pay as you go" basis for a single fiscal year through an annual appropriation authorized by the Court during the County's annual budget adoption process. Premiums are determined annually by estimating the amount needed to cover projected claims. The retiree contributes 100% of the total monthly premium prescribed in the current health plan for active employees and their spouse and/or dependents.

Annual OPEB Cost

The County's annual OPEB cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameter of GASB Statement No. 45. The ARC represents a level of accrual that, if paid on an ongoing basis, is projected to cover the normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Funded Status and Funding Progress

Under the reporting parameters, the County’s retiree health care plan is 0.0% funded with the actuarial accrued liability exceeding the actuarial assets by \$1,553,418 at March 31, 2016. The covered payroll (annual payroll of active employees, for the fiscal year ended September 30, 2015, covered by the plan) was \$25,442,087. As of the most recent valuation, the ratio of the unfunded actuarial accrued liability to annual covered payroll is 6.11%.

Actuarial Methods and Assumptions

The Individual Entry Age Normal Cost Method is used to calculate the GASB ARC for the County’s retiree health care plan. Using the plan benefits, the present health premiums and a set of actuarial assumptions, the anticipated future payments are projected. The actuarial cost method then provides for a systematic funding for these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members as well as to amortize a portion of the unfunded accrued liability.

Projections of health benefits are based on the plan as understood by the County and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the County and its employees to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

RANDALL COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 16 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) – Continuation

Significant methods and assumptions were as follows:

Inflation rate	2.50% per annum
Investment rate of return	4.00%, per annum net of expenses
Actuarial cost method	Individual Entry Age Normal Cost Method
Amortization method	Level as a percentage of employee payroll
Amortization period	30-year open amortization
Salary growth	3.00% per annum
Medical trend	Initial rate of 7.00% declining to an ultimate rate of 4.25% after 14 years

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status and the annual required contributions of the County's retiree health care plan are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Additional Disclosures

Texas Local Government Code 175.101 requires counties to make available continued health benefit coverage under certain circumstances to retirees and their dependents beyond the end of an individual's employment with the County by permitting covered employees to purchase continued health benefits coverage in retirement. Texas Law does not require counties to fund all or any portion of such coverage.

GASB 45 requires governmental organizations to recognize an actuarially calculated accrued liability for OPEB even though it may not have a legally enforceable obligation to pay OPEB benefits. Information and amounts presented in this statement relative to OPEB expense, related liabilities (assets), note disclosures, and supplementary information are intended to achieve compliance with the requirements of GAAP and does not constitute or imply that the County has made a commitment or is legally obligated to fund OPEB benefits.

NOTE 17 – COMMITMENTS AND CONTINGENCIES

The County is the defendant in a number of lawsuits arising principally in the normal course of operations. In the opinion of the management of the County the outcome of these lawsuits will not have a material adverse effect on the accompanying basic financial statements and accordingly, no provision for losses has been recorded.

The County participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the County has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at September 30, 2016, may be impaired. In the opinion of the County, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

RANDALL COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 18 – CONDUIT DEBT

During the year ended September 30, 2009, the County issued General Obligation Bonds totaling \$200,000 for the purpose of assisting with the financing needed by the Boatwright-Trew Road District, a privately run organization, to improve upon roads within the County. Final maturity of the bonds was February 15, 2016. The bonds were secured by various assets of the District.

The County had no liability for the General Obligations Bonds in the event of default by the borrowers. Accordingly, the bonds were not reported as liabilities in the County's financial statements.

NOTE 19 – TAX ABATEMENT AGREEMENTS

The County has entered into a tax abatement agreement which is authorized and governed by the Property Redevelopment and Tax Abatement Act, Chapter 312, Texas Tax Code with Astra Wind, LLC. The Company is to develop a 156.4 megawatt wind powered electric generating facility in Randall County costing approximately \$190,000,000. The County will abate 100% of the ad valorem taxes on this development for a period of ten years beginning on January 1 of the year following completion of the development. During this ten year tax abatement period, the Company will pay the County \$2,000 per megawatt of turbine nameplate capacity. The development has not been completed as of the year end.

The County has entered into a tax abatement agreement which is authorized and governed by the Property Redevelopment and Tax Abatement Act, Chapter 312, Texas Tax Code with Lone Star Products, LLC. The Company is to develop a new milk powder processing, specialty drying and milk ingredient facility in Randall County costing approximately \$75,000,000. The County will abate 100% of the ad valorem on this development for a period of ten years beginning on January 1 of the year following completion of the development. Starting in the second year of this ten year tax abatement period, the Company will begin to pay the County an amount in lieu of the ad valorem taxes. This amount begins at \$76,200 per year and increases to \$123,800 in year ten. The development has not been completed as of the year end.

(1)TCDRS calculates actuarially determined contributions on a calender year basis. GASB Statement No. 68 indicates the employer should report employer contribution amounts on a fiscal year basis.

(2) Payroll is calculated based on contributions as reported to TCDRS

Following are the key assumptions and methods used in this GASB analysis:

Valuation Date	Actuarially determined contribution rates are calculated each December 31, two years prior to the end of the fiscal year in which contributions are reported.
Actuarial Cost Method	Entry Age
Amortization Method	Level percentage of payroll, closed
Remaining Amortization Period	14.9 years (based on contribution rate calculated in 12/31/2015 valuation)
Asset Valuation Method	5-year smoothed market
Inflation	3%
Salary increases	Varies by age and service. 4.9% average over career including inflation.
Investment rate of return	8.00%, net of investment expenses, including inflation
Retirement age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at service retirement for recent retirees is 61.
Mortality	In the 2015 actuarial valuation, assumed life expectancies were adjusted as a result of adopting a new projection scale (110% of the MP-2014 Ultimate Scale) for 2014 and later. Previously Scale AA had been used. The base table is the RP-2000 table projected with Scale AA to 2014.
Changes in Plan Provisions Reflected in the Schedule	No Changes in plan provisions are reflected in the Schedule of Employer Contributions.

Note: Overlapping rates are those that apply to property owners within Randall County. Not all overlapping rates apply to all county property owners; for example, although the county property tax rates apply to all county property owners, the City of Canyon rates apply only to those whose property is located within the city's geographic boundaries.

COMPLIANCE

To The Honorable County Judge and
Commissioners Comprising the
Commissioners' Court of
Randall County, Texas

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and their respective budgetary comparisons, and the aggregate remaining fund information of Randall County, Texas, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise Randall County, Texas' basic financial statements, and have issued our report thereon dated February 16, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Randall County, Texas' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
